South Mass Ave Sidewalk Construction Update

Mass Highway's contractor, the ROADS Corporation, is currently reconstructing sidewalks between Vassar Street and Albany Street.

Throughout the fall, sidewalk work will continue in approximately 500-ft sections throughout the project area. Businesses and residents will be notified in advance of work on their block.

As part of this work, the contractor will:

- Remove existing sidewalk
- Reset curbs
- Install conduit and light pole bases
- Place new concrete

After the concrete walking surface has been reopened, work will begin on the brick-edging strip.

During this construction, the contractor is required to keep safe, accessible passage along the street and into buildings at all times. Because exact routes may change from day-to-day, please check signage, fencing, and barrels/ tape.

Parking restrictions will be in effect; please be sure to check posted No Parking signs for exact dates and times.

If you need assistance, or have any questions or concerns during this construction, or have a *special need* or *disability* that requires an accommodation or continuation of special services during construction, please contact me at (617) 349-6948/ rfuentes@cambridgema.gov.

Thank you as always for your patience during this construction.

Sincerely,

Rebecca Fuentes
Community Relations Manager, DPW
